ADVANTAGES
OF BALTECH TR SERIES INFRARED CAMERAS

- Excellent thermal image
- High accuracy temperature measurement
- Folding and 270°rotatable display
- Auto/Motor focus for one-hand operation
- Wide temperature measurement range
- Laser pointer
- Bright LED light
- Built-in digital camera
- Built-in microphone to record 40sec. voice annotation
- Wide-angle and telephoto IR lens (interchangeable)
- Scalable P-I-P and Thermal fusion
- Automatic Hot/Cold/Average temperature detection
- Real-time thermal video transfer to PC via USB and remote transfer via MSNand Skype
- Intuitive and easy operating menu
- Analysis software

BALTECH TR Series infrared cameras are reliable noncontact devices that are intended to analyze and display a thermal field (temperature) distribution on the object surface fast and accurately. IR imaging technology provides a great cost saving of our clients all over the world. BALTECH offers the infrared cameras with a state-of-the-art focal plane array technology, that provides accurate temperature measurement and professional image processing.
