## Power Plant in SCG Cement Group Thungsong, Kaowong, Kangkoi Plant

The biggest cement plant group in Thailand has 5 cement plants with power plant in each plants.

Their Generator/Turbines are from China and have faced many problems on Vibration Monitoring and Protection system.

They decided to innovate the protection system by educating their team.

AST is the one who provided them the knowledge of difference between Shaft and Case Vibration.

In finally, AST was awarded to be only the vendor for vibration protection system for all their power plants.
